#### "If they're Rich's Shoes they're proper."

Ten-one F, Cor. 10th. Entire building. 'Phone "one-fifty."

The windup of the social season finds us well preprepared as at the beginning to supply the footwear for weddings, dinners, cotillions and like functions. At no time is the stock or assortment allowed to run down.

Too much cannot be said of this children's department -of our methods of selling children's shoes. Just as much care is used in fitting the juvenile folks as the older ones, for we realize the injuriousness of ill-fitting footwear. Our entire third floor is devoted to the selling of child's shoes—the largest stock and variety in the city.

Those contemplating southern travel and desirous of taking with them the new spring and summer footwear will find it here in variety almost complete. The correct fashions in golfing, shooting and riding footwear are also here in abundance.

B. RICH'S SONS,

Ten-one F, Cor. 10th.

HE BURNED BUILDING.

Moses & Sons' Branch Establishment Nearly Destroyed.

THE ESTIMATED LOSS

FIREMEN FIGHT THE FLAMES IN FREEZING WEATHER.

Eighteen Companies of the Department and Police Reserves Summoned to the Scene.

grees above zero and water forming ice soon after it left the pipes, the members of the fire department were called to the building at 14th and B streets northwest, where the new work is done and repairs are made for the furfiture firm of W. B. Moses & Sons. A pedestrian discovered fire on the third floor of the building about 6:15 o'clock. and hurried across the street to the house of Truck C company to summon the fire-The horses had hardly been harstreet. This alarm brought eight companies of the fire department and the police reserves from the first precinct.

Upon the arrival of the enginemen and the assistant chiefs it was evident that additional companies would be required to save neighboring property. Five minutes after the first alarm was turned in a second was sounded. This was followed by a fourth and fifth alarm, and there were then eighteen companies of the fire department upon the scene. These included twelve engine companies, one chemical, four trucks and the water tower. Police reserves from three additional precincts were also sum-moned, and with them were the lieutenants and several other officials of the depart-

Because of the severe weather the crowd of curious people was much smaller, doubt less ,than it would otherwise have been. The origin of the fire is unknown, but it is bethe building and stock is estimated at from \$10,000 to \$13,000. The building is owned by C. W. Doubleday and is insured. It is said that the stock was only partly insured.

Street Car Traffic Suspended.

Happening as it did at so early an hour. and on so cold a morning the fire caused serious annovance to thousands of persons employed in the departments and private establishments. Street car traffic on the line between the scene of the fire and the

blaze had died away. While there was considerable suffering on the part of mempers of the police and fire departments, the sight presented was an attractive one. Telegraph wires strung in front of the

sight presented was an attractive one. Telegraph wires strung in front of the building were like strings of crystal, having heavy icicles hanging from them. The brick walls were plastered several inches thick with ice, and the branches of surrounding trees were heavily coated. In several places on the ground there was what appeared to be a fresh fall of snow. It was caused by the steam from the water thrown on the fire, being condensed by the cold and precipitated as snow.

Chief Dutton, who was among the early arrivals, was deluged with water, and when he went away his coat was as stiff as a board. Major Sylvester was also an early arrival. The message he received stated that the plant of the United States Electric Lighting Company was burning, and knowing what such a fire would mean the superintendent had several of his captains and an extra number of men summoned. The suffering on the part of many of the firemen was intense, and Chief Dutton will consider the department fortunate if sickness does not follow. Almost every member of the department who attended the fire received a wetting and was covered with ice. Through the kindness of the members of the firm of W. B. Moses & Sons and S. S. Daish & Son the firemen and policemen were furnished hot coffee and sandwiches.

The Inflammable Material.

The Inflammable Material.

There was a great amount of inflammable material in the building in which the fire occurred. There were three departments in the structure-one a cabinet shop, another a repair shop and the third was where hard wood finishing was done. Many pieces of valuable furniture belonging to Dr. Shepherd were removed from the build-ing yesterday. His furniture came from Parls, and three pieces of it were destroyed. While the work rooms on two floors appeared to have been completely wrecked, it is believed that some of the material was not completely ruined. The four-inch turret valve on the water tower was affected by the cold, and the hose also suffered some damage because of the weather conditions. The bursting of a piece of hose near the water tower resulted in wetting the big piece of machinery, and in a short time it was a mass of ice.

The Engines in Service.

When the first alarm was sounded engine companies 2, 14, 1 and 6, truck companies C and B, chemical engine company 1, the water tower and Acting Assistant Chief Smith and Assistant Chief Belt responded in the order given. Five minutes later the second afarm was sent in, engine companies 4 and 7 responding. At 6:32 a engine companies 3, 9, 12 and 5, truck comfifth alarm followed eight minutes later, engine companies 8 and 11 and truck company A responding, leaving in quarters Tenleytown and Brookland chemical engine companies; No. 15 engine company transferring from Anacostia to the quarters of No. 8, North Carolina avenue between 6th and 7th streets southeast, and No. 10 from and 14th streets northeast, to those of No. 6. Massachusetts avenue between 4th and 5th streets northwest. The other com-No. 1 chemical engine company soon reriver had to be suspended, the passen-gers on the Alexandria line having street, and at 9:26 engine companies 4 and

FIREMEN'S ICY WORK.

to walk to or from the south line of B street. Employes of the bureau of engraving and printing suffered most, as they have to reach their place of employment earlier than those employed in other government establishments. Shortly after 9 o'clock a force of men was at work along the tracks thawing away the ice by burning gasoline, and when the last line of hose had been taken from across the tracks there were cars ready to resume their trips.

Firemen's Quick Response. It was not more than two minutes after the fire was discovered before the firemen reached the burning building. While it was apparent that the blaze had started on the third floor it seemed as if the flames had reached the entire length of the structure on the second floor as well. It was simply a matter of impossibility for the fire-men to enter the upper part of the build-ing, and the aerial ladder connected with Truck C and the water tower did valuable service. Fortunately these companies were not far from the scene and were in operation in time to do effective work. In a few minutes after the first stream of water was turned on the fire the building was coated with ice and the firemen also appeared as if they were in the polar region. They were coated with ice and many of them were so badly chilled that they were almost unable to remain at their post. Many of the fire-men who were off duty and were supposed to be enjoying themselves in the houses showed their devotion to duty by respond-ing when the second alarm was turned in, and they remained on duty until the work was over. Most of these men were minus uniforms and were even without their boots. Their shoes were of little use to them for they were required to wade about in water which was nearly knee deep at times. Chief Dutton was very much pleased with the work of these men, as he was with the general good work of the department. For time the flames threatened the lumb J. E. Chapman, but the firemen succeeded in confining them to the building in which they originated. Ropes were stretched on the east side of 14th street and the police had but little trouble in keeping the crowd

5 reported back in quarters, followed about half an hour later by engine companies 1 and 9 and truck companies B and D, en-gine companies 12 and 14 reporting back a few minutes later.

Again Called Out.

Before the men of No. 1 engine company nad time to change their wet and frozen clothes the company was sent on a local to No. 22 Jackson place, and shortly after that box 135, 11th and G streets northwest, was pulled, engine companies 14 and 10 and truck D responding.

A second alarm was sounded for this fire in a short time, and additional companies were called out. Members of several of the companies were changing their clothes while others were looking after their horses. The animals were greatly fatigued after their early morning experi-

fatigued after their early morning experience, but they had to go out again the same as the firement.

Fire broke out in the temporary head-quarters of the Army War College, 22 Jackson place, early this morning, but was extinguished promptly by aid from the War Department. The confidentials by a defect in electric wires.

ANOTHER BRISK FIRE.

Louis B. Ridenour Company's Establishment Damaged.

The antique furniture and bric-a-brac esablishment of Louis B. Ridenour Company. located at 1215 G street northwest, was the scene this morning of a conflagration of considerable proportions. The blaze started n the basement, and scarcely more than a minute after it was discovered the smoke was pouring from the building in huge volumes. By the prompt work of the fire-men, however, the flames were confined for the most part to the basement, and as a result the damage was reduced to com-paratively a small amount. It is difficult paratively a small amount. It is difficult to estimate the exact amount of injury to the stock, but it is thought to be about \$1,000, or more, caused by fire, water and general breakage. The total insurance on the stock is \$10,000, held in various amounts by several companies. The floor of the first story in the front end of the establishment was badly hurred and the building.

taneous combustion. Mr. Harry Deckman, the head clerk of the firm, and the colored porter, were in the basement at about 10:30 o'clock this morning preparing a bill of goods for shipment. In the basement is stored packing materials of various kinds, furnace is also located in the cellar. While the two employes were engaged in their occupation, they suddenly noticed a blaze leap out from a pile of boxes and light packing material in the center of the room.

and pulled off their coats, endeavoring to The flames rapidly gained on them and they sought the outer air. The smoke by this time was dense in the cellar. The portrance, while Mr. Deckman, who was on the other side of the fire, made his way to the iron trapdoor opening on the pavement. He was unable to open the doors, however, and it is likely he would have been suffocated by the smoke, had not Mr. F. E. Hopkins, the manager of the store come to his assistance. Mr. Hopkins opened the street doors and helped the clerk to the

They immediately sounded the alarm of fire

Firemen Respond.

In the meantime the fire department had been notified, and they responded quickly. It was difficult to get water at first, because it had been frozen in the pipes, but the engines got in their work and several streams were in effective operation after a short delay.

The basement appeared a mass of flame, and it was feared that the blaze would spread to other parts of the house. A second alarm was sounded, and more hose ond alarm was sounded, and more nose brought into action with telling effect. After half an hour from the sounding of the alarm the fire was under control, and the work of clearing the basement of smouldering material was begun.

Many of the fire laddies had already done duty at the blaze at the Moses Bros.' warehouse, and the water which had drenched their overcoats there had frozen, giving them the appearance of snow men. The in-

them the appearance of snow men. The in-tense cold made the work unusually severe There was an immense crowd of specta-

tors, unheeding the cold, who lined G street compactly between 11th and 13th streets, and the police had some difficulty in pre-serving the fire line. When the firemen broke in the show windows in the front of the establishment they were met with a large sign on which were the words "Visitors Welcome." This inci-

dent caused considerable amusement to a part of the crowd.

part of the crowd.

Mr. Deckman, the clerk in the establishment, was slightly bruised by falling down stairs while engaged in assisting one of the employes, an old man, from the third story during the early part of the fire. His injuries were not serious, however. Soon after the blaze started the firm of C. A. Muddiman & Co. began making hot coffee, which was supplied to the chilly firemen in generous quantities in order to keep

While No. 12 hose carriage, on its way to the blaze, was making the turn at 9th street and New oYrk avenue the rear wheels slid against the curbstone, breaking the rear axle. Assistant Foreman Smith was thrown from the carriage to the ground and bruised about the back and hips. He recovered himself, however, and joined in the work of fighting the flames.

Accidents to Hose Carriages.

Hose carriage No. 15, while answering the alarm, also broke down on C street near the Baltimore and Ohio depot. No one was injured in this accident. Mr. Hopkins, the manager of the store, stated to a reporter for The Star that Mr. Ridenour, the proprietor of the establishment, is out of the city on business, and his exact whereabouts are unknown to his friends here. He is expected to return to the city within a short time.

## AFFAIRS IN GEORGETOWN.

Cry of Fire. The residents of Tenleytown were suddeny awakened from their slumbers last night about 10 o'clock by the cry of 'fire," and flames were discovered to be issuing from the chimney of the home of Mrs. Elizabeth Lester on Wisconsin avenue near the River road. An alarm was immediately turned in and the blaze was quickly extinguished. But little damage was done. The property

is owned by Mrs. William Britt. Funeral services were held over the remains of Mr. Josiah Wilkinson this afternoon at 2 o'clock at the residence of his sister, 1241 33d street. The ceremonies were attended by the members of Potomac Lodge, F. A. A. M., of which the deceased was a member. The interment was made in Congressional cemetery. Mr. Wilkinson's

death occurred Monday. Miss Mamie Schneider and Mr. Thomas Kengla were united in marriage yesterday afternoon at the residence of the bride, or Visconsin avenue, Tenleytown, by the Rev Father Joseph Mallon, pastor of St. Ann's Catholic Church. The ceremony was followed by a reception, after which the couple left on an extended wedding tour. An oyster supper was held Tuesday and Wednesday evening at Good Templars'

Hall, Tenleytown, under the auspices of Silver Star Lodge, No. 20, I. O. G. T., for the purpose of raising funds with which to purchase a dinner set and kitchen utensils. The birth of General George Washington will be commemorated this evening at the regular meeting of the lodge, during which a program befitting the occasion will be rendered by the members. A committee, composed of Messrs. William Collins and Charles Shaffer, will be in charge of the

The members of "The Boys," a fraternity of Tenleytown, gave an entertainment last evening at St. Alban's Parish Hall, on the Murdock Mill road, for the benefit of the

organization. Lieutenant John Swindells of the seventh precinct station, who has been confined to his home, 3328 R street, suffering from an attack of grip, has almost entirely recovered and will resume command of the precinc as soon as the weather moderates.

Held on Suspicion. A young colored man named Robert

Grady, who lives at 1113 Green's court northwest, was arrested today by Policeman Forteney of the second precinct and held on suspicion. He was arrested on suspicion of having snatched a pocketbook from Mrs. W. B. Boggs of 1021 Vermont avenue, near 15th and L streets northwest, late yesterday afternoon. Grady denies his guilt. The officer found a dozen secondhand pocketbooks in the house where Grady lives, but that of Mrs. Boggs was not one of them. A gold ring containing the initials "A. M.." a bar pin and articles of cut-lery were also found there. These articles were taken by the officer and are being held for identification. Hasn't "Laid Away the Suit of Gray."

in the entire south who continues to wear the uniform of the confederate army, and that man is a resident of the great state of Texas," said Henry C. Bailey of the one star state to a Star man at the Arlington this morning. "Gen. George F. Alford of Dallas, familiarly spoken of as 'the best-known man in Texas,' walks the town he may be visiting, wearing the uniform he wore as a brigadier general in the army of the confederate states. He has been a soldier, statesman, banker and judge, and was a great friend of the late

\$1.25 Long Cloth, 87c.

Very soft-finished English Long Cloth; fash-ionable and desirable; usually sold at \$1.25 piece of 12 yards. Green Ticket Price, 87c.

BEWARE THE GRIPP Citizens of Tenleytown Aroused by Health Authorities Advise Avoidance

> From the New York Herald Don't get "run down." Eat nourishing food. Take plenty of sleep. Avoid draughts and excesses. Above all, shun alcohol.

"Beware the grip" is the watchword at the department of health. The disease has caused a significant increase in the city's mortality; damp, wet and foggy weather being the grip's harvest season. Experts of the department, as a warning, give the simple advice quoted above. Dr. William H. Guilfoy, registrar of the department, said yesterday that alcohol bears a relation to the grip different from that toward other diseases. Often it is nourishment, and as such, a preventive of certain diseases, he said, but it seems to make the grip bacillus more virulent and deadly. Grip gives little warning of its fierce onslaughts. Last week it caused seven deaths in Manhattan, a small number, but a jump from four of the week previous. Seven is the largest num-

ber of deaths from the disease this year.
"Just such unseasonable weather as this suits the influenza," said Dr. Guilfoy, "and when it strikes the city the number of fatal cases often increases with a tremendous bound in a single day. It has jumped from 123 to 193 deaths from one day to the next. This is the time of year it is most likely to become prevalent. The atmospheric condi-tions for ten days have been just those on which influenza flourishes, and the increase in the death rate shows that it is at work. Physicians dread a third epidemic here, be-cause, while the first one, in 1889-90, lasted only six weeks, the second one, in 1891, lasted more than two months, and since then there has always been more or less of it, except in the summer."

Cattle Raising in Canada.

"Canadians are making arrangements to enter into cattle raising on a large scale," said Robt. T. Garrett of Omaha, Neb., to a Star man at the New Willard this morning. "A number-of farmers from the dominion have visited South Omaha recently for the purpose of buying stock. They are buying cows in large numbers, and having them shipped to ranges about to be established. Many carloads of Hereford cattle have al-ready been shipped, and more are to fol-

### CAUGHT HIS CAR.

Four burly fellows jostled an elderly man aside as they entered a Boston restaurant. It was 7:55. and they were intent upon getting breakfast and catching an 8 o'clock train,

When the train pulled out, with the old man

fastless, caught the rear platform of the last car Francis Woodley, colored, two years old, died at the home of his parents, 1423 1st street northwest, about 11 o'clock this morning. There had been no physician in attendance and the coroner was notified of the child's death. A certificate of death from natural causes was given.

Army of the statesman, banker and been a soldier, statesman, banker and judge, and was a great friend of the late Tom Ochiltree. While on a trip with Colonel Ochiltree General Alford met with reverses, but went to work and made another fortune, called his creditors together and paid all he owed, dollar for dollar."

The child's death. A certificate of death from natural causes was given.

"Pork chops!" "Fried oysters!"

At 7:59 the old man had finished his breakfast.

#### I praise Ripans Tabules because I have been helped immensely by them, and am still depending on them whenever the liver "sticks in my side" or I can't feel properly "hungry." Ripans are a
